NFAC-7233-81/1
 10 November 1981

MEMORANDUM FOR: Director, Foreign Broadcast Information Service

SUBJECT: Support of [] During the 2-5 November
 NFAC-ROK/NSP Analysts Exchange Conference

STAT

1. During our recently concluded analysts exchange conference with the South Korean representatives, [] of your office provided outstanding services as an interpreter, which contributed substantially to the success of our meetings. Operating under considerable pressure without advance preparation, [] carried the bulk of the interpretation effort throughout the conference. He was called upon to deal in detail with subjects ranging from political issues to very specific technical matters. [] was able to convey faithfully and in detail the views of both sides in formal presentations, question and answer periods and during social functions. He was, in addition, able to offer important corrections and elaborations at times when he was not acting as interpreter.

STAT

STAT

STAT

2. [] obvious professionalism and his modest demeanor allowed him to establish immediate rapport with our Korean colleagues and contributed to the relaxed atmosphere and productivity of the conference. Clearly, without [] services our conference would have been far less effective and our understanding of the issues and concerns voiced by our Korean visitors would have been quite restricted.

STAT

STAT

3. I would appreciate your conveying my personal appreciation to [] for his efforts on behalf of NFAC.
